

Hi just a brief rundown on my history, I have been around cars etc for as long as I can remember, have helped out in speedway, Drags and Hot rodding.

I have been in Bay Rodders for 30+ years in this time was president and on committee for a lot of the time.

In this time we started the Spring Street automotive swap meet and display, took over the Nostalgia Drags and managed to build it to a great event, was part of 2015 street rod nationals.

Have been involved in many private displays and runs but one that stands out was the Organ Donor show on Tauranga's waterfront.

Being involved with our sport have found the rodding family is as important as our cars, and need to work and keep it enjoyable going forward.

Thanks

Deano Anderson
