

I joined NZHRA in 1985 (independently). Not too many girls back then as there is today, which is great to see. Joined Delta Rodders and became active. Club Committee, Secretary, President.

First Nationals in Nelson in 86, and soon after that I purchased a 1937 Ford Coupe. My only means of transport, so I drove that old girl everywhere. Had the Coupe for around 25 years.

I had a couple of decades working and living in the Northern Hemisphere, and since returning home I am overwhelmed at the car events on, compared to back in the 80s.

I have made lifelong friendships through the Association and enjoy meeting up at events and catching up with like-minded Petrolheads.
